(3.) In addition to clearing its right-of-way, as provided above, every railway company shall remove, when so ordered, from land alongside its right-of-way any dead timber or accumulation of debris that endangers the safety of adjoining timber lands, and shall pile and burn such dead timber and debris under direction and permit from the district Fire Warden.

(4.) The right-of-way, of every railway company must at all times be kept free of dead timber, brush, dry grass, and other inflammable matter:

(6.) Debris caused by the cutting of any timber by a railway company, under special permit of the Minister of Lands on lands of the Crown adjacent to the right-of-way must at once be limbed off and piled, and dealt with subsequently, by burning or otherwise, in accordance with the orders of the Minister of Lands. On every engine equipped with a diamond stack the mesh to be not more than 3×3 per inch of No. 10 Birmingham wire gauge, and to be placed across the top of the stack so as to completely cover the same; the opening of the said mesh not to exceed three-sixteenths of an inch and one sixty-fourth of an inch to the square inch.

(8.) MUNICIPAL BY-LAWS.

A BY-LAW FOR THE BETTER DYKING AND DRAINING OF ANNACIS ISLAND.

WHEREAS a majority (in number and value) of the owners, as shown by the last revised assessment roll, of the property hereinafter set forth to be benefited by the better draining and dyking have petitioned the Council of the Corporation of Delta as follows:—

"To the Recre and Council of the Corporation of Delta:

"GENTLEMEN.—Whereas the undersigned are the owners (according to the last revised assessment roll) of lands situate upon Annacis Island, in the Municipality of the Corporation of Delta, and are desirous that the dyking and drainage system now existing upon the said Annacis Island be improved and maintained under the provisions of the dyking and drainage clauses of the 'Municipal Clauses Act,' being sections 266 to 286, inclusive:

"Therefore your petitioners pray that you will give effect to their wishes as expressed in the foregoing, and your petitioners will ever pray."

And whereas thereupon the said Council procured an examination to be made by E. B. Howes, C.E., (being a person competent for such purpose), of the said locality proposed to be benefited by the maintenance of the necessary dykes and drains, and has also procured plans and estimates of the work to be made by the said E. B. Howes, and an assessment made by him of the lands to be benefited by such repairs and maintenance, stating as nearly as he can the proportion of benefit which in his opinion will be derived in consequence of such repairs and maintenance by every lot or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the lots and parts of lots hereinafter in that behalf specially set forth

and described, and the report of the said E. B. Howes in respect thereof and of the said repairs and maintenance being as follows:

"To the Municipal Council, Municipality of Delta, Ladner, B. C.:

"DYKE ANNACIS ISLAND.

"GENTLEMEN, I have made a careful examination of the dyke around Annacis Island, and have taken levels around the entire island. I find the dyke to be in first-class order, with the exception of a few places which are lower than the 1894 high-water mark.

"On the accompanying profile, I have shown the top of the dyke with reference to the 1894 high-water mark. I understood from Mr. Pike that the dyke was originally built to a height of about 18 inches above the 1894 high-water mark. For the most the dyke is more than 18 inches above the high-water mark, but there are some places which are lower. On the accompanying map and profile, I have shown, in red, the places which are low, and I have estimated the amount of yardage required to repair these low places.

"There are a few stretches along the dyke that run about 1 foot above the 1894 high-water mark. I do not think that it is absolutely necessary that the dyke should be 18 inches above the 1894 high-water mark, so therefore have not made any provision to raise these places. If all the dyke is raised to be 18 inches above the high-water mark, it would take double the amount of work than the following estimate provides for, figuring only on repairing the places as shown on the profile. The material for repairing the dyke can be secured alongside, and put on the dyke with wheelbarrows.

"For your information regarding plans, the initial point of chainage, Station 'O,' commences at a point on the dyke opposite Mr. Pike's house, on the east end of the island, and the chainage runs down each side of the island.

And whereas the said Council is of the opinion that the repairing, maintaining, and improving of the dykes and drainage of the locality described is desirable:

Be it therefore enacted by the said Municipal Council of the Corporation of Delta, pursuant to the provisions of the "Municipal Clauses Act," as follows:—

MUNICIPAL BY-LAWS.

A BY-LAW

For draining a Portion of the Municipality of the Corporation of Delta, and for the Borrowing on the Credit of the Corporation the Sum of \$19,637.35 for completing the same.

WHEREAS a majority in number and value of the owners, as shown by the last revised assessment roll, of the property hereinafter set forth to be benefited by the drainage have petitioned the Council of the said Corporation of Delta, praying that "you will, under the provisions of the dyking and drainage clauses of the 'Municipal Clauses Act,' construct or cause to be constructed and maintained a good and sufficient system of drainage for that portion of this Municipality draining to the big Slough in East Delta.":

And whereas thereupon the said Council procured an examination to be made by Albert J. Hill, C. E. (being a person competent for such purpose), of the locality proposed to be drained, and has also procured plans and estimates of the work to be made by the said Albert J. Hill, and an assessment made by him of the lands to be benefited by such drainage, stating as nearly as he can the proportion of benefit which in his opinion will be derived in consequence of such drainage by every lot or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the lots and parts of lots hereinafter in that behalf specially set forth and described, and the report of the said Albert J. Hill in respect thereof and of the said drainage being as follows:—

"To the Reeve and Council of Delta:

"GENTLEMEN,—*Re* proposed drainage-works in East Delta: Acting under instructions from Mr. Oliver, I have the honour to report that the area shown in yellow on the accompanying plan will be benefited by the construction of the works for which specifications are hereto attached; I also enclose assessment sheet showing the proportion of cost which, in my opinion, should be borne by each lot. The assessment is fixed per acre, and the acreage given is approximate only, and should be verified by the assessment roll of the Municipality and any discrepancies corrected.

"The estimated cost of right-of-way could, I think, be very materially reduced by limiting the quantity to be acquired to what is actually to be occupied by the ditches and levelling the material excavated over the adjoining surface by mutual arrangement with the proprietors interested.

"Yours respectfully,

"ALBERT J. HILL,
Civil Engineer."

And whereas the said Council is of the opinion that the drainage of the locality described is desirable:

Be it therefore enacted by the Reeve and Council of the Corporation of Delta, pursuant to the provisions of the "Municipal Clauses Act," as follows:—

(1.) That the said report, plans, and estimates be adopted and the works connected therewith be made and constructed in accordance therewith:

(2.) That the Reeve of the said Corporation of Delta may borrow on the credit of the Corporation of Delta the sum of \$19,637.35, being the funds necessary for the work, and may issue debentures of the Corporation to that amount in sums of not less than one hundred dollars each, and payable within twenty years from the date thereof, with interest at the rate of five per centum per annum, payable half yearly at the Royal Bank of Canada in the City of Toronto, in the Province of Ontario; or at the said bank in the City of Montreal, in the Province of Quebec; or at the said bank in Ladner, in the Province of British Columbia; or at the said bank in the City of London, in England; or at the said bank in the City of New York, in the United States; and to have attached to them coupons for the payment of interest.

(3.) That the assessment sheet hereto annexed shall form part of this by-law, and the amounts set out therein against each lot or part of lot shall be charged against such lot or part of lot.

And that for the purpose of paying the sum of \$19,637.35, being the amount charged against the said lands so to be benefited as aforesaid (other than lands belonging to the Municipality), and to cover interest thereon for twenty years at the rate of five per centum per annum, a special rate over and above all other rates shall be assessed and levied upon the lots and parts of lots as mentioned in the assessment sheet hereto annexed, and the amount of said special rate and interest assessed as aforesaid against each lot or part of lot respectively shall be divided into twenty equal parts and one such part (as shown on the assessment sheet) shall be assessed and levied as aforesaid in each and every year for twenty years after the final passing of this by-law, during which the said debentures have to run.
